2018**

TOPICS & SPEAKERS

Dr. P.M. Sunil

MDS PhD FTPRM(Canada)

Lecture 1

An insight into Stem cells & Regenerative Medicine

Dr. P M Sunil is presently working as the Principal & Director of Stem cells and Regenerative Medicine, Sree Anjaneya Institute of Dental Sciences, Calicut. He underwent training program (Fellowship) in regenerative medicine from university of Toronto and hands on course in Regenerative Medicine offered by Utrecht University, Netherlands, Observership in University of Toronto (Neuro Regeneration) and cell culture & Tissue Engineering workshop in Wake Forest Institute for Regenerative Medicine North Carolina, USA. He has a vast experience in the area of stem cells and regenerative medicine for the past 10 years and his main area of interest is dental pulp stem cells and its clinical translation.

Lecture 2

Biofabrication of Tissues: Promises and Challenges

Dr. Anil Kumar PR, is Scientist E and In-Charge of Division of Tissue Culture, Biomedical Technology Wing, Sree Chitra Tirunal Institute for Medical Sciences and Technology, Trivandrum and also a visiting scientist to Wake Forest University of Regenerative Medicine, USA. His expertise is in Cytotoxicity evaluation of Biomaterials, 3D Bioprinting, Cell Sheet Technology, Stem Cells, Bioengineered Tissues and Bioreactors. His broad area of research is cell technologies that encompass biofabrication of functional biological substitutes for biomedical applications.

Lecture 3 Applications of Biomaterials in Oral & Maxillofacial Region

Dr. Manikandhan Ramanathan is presently working as the Professor & Director of cleft & craniofacial unit at Meenakshi Ammal Dental College, Chennai. He is actively involved with - Cleft Children International, Zurich, Switzerland. He has held the position of a specialist registrar at the Foundation of Cosmetic Surgery, UK. He has completed training program in regenerative medicine from Toronto University & is actively involved in research related to adipose stem cells, bone morphogenic protein & hydroxyapatite bio-scaffold for maxillofacial tissue engineering.

Dr. Sunil George
PhD

Keynote Lecture Stem Cells Applications in Regenerative Medicine

Dr. Sunil George is a Tissue Engineer and Regenerative Medicine Scientist at the Wake Forest Institute for Regenerative Medicine, North Carolina, USA. His research focuses on understanding the regenerative ability of stem cells, developing novel approaches of stem cell therapy and tissue repair and organ regeneration. Additionally he is also involved in the Body on a Chip project which aims to develop micro-tissue organoid platforms and fluidic devices for in vitro toxicology and drug screening. Presently he is leading six projects on cell based therapy for regeneration and bioengineered kidneys.

PROGRAMME SCHEDULE

9 AM - 10 AM	: Registration
10 AM - 10.30 AM	: Inauguration Ceremony
10.30 AM - 10.40 AM	: Logo Launch of Stem Cells & Regenerative Medicine Department by Dr. T.R. Saraswathi MDS MSc (London) & Dr. C.R. Ramachandran BSc MDS
10.40 AM - 11 AM	: Lecture 1
11 AM - 11.20 AM	: Lecture 2
